

JUNE 2024

Adding a Button to Your Website

One way your organization can educate your community about their Medicare rights is including a hyperlink on your website (that is linked to [acentraqio.com/bene](https://www.acentraqio.com/bene)). For example, you can place a graphic (a button people can click on) on your home page or programs page. If you have a content management system for your website, you may be able to make this update yourself. Otherwise, your Information Technology (IT) department should be able to provide assistance.

Instructions:

1. Save one of the graphics to your computer. There are two different graphics to choose from.

You can access the graphics from Acentra Health's website in two ways:

2. You can save the graphic right from Acentra Health's web page by right clicking and then saving to your computer's hard drive.
 - a. You can access graphics at the following URLs:

On Medicare?
**Get information about
your Medicare rights.**

https://www.acentraqio.com/media/1351/mymedicarerights_or.png

On Medicare?
**Get information about
your Medicare rights.**

https://www.acentraqio.com/media/1350/mymedicarerights_bl.png

1. **Upload** the image to your website.
3. **Link** the graphic (image) to <https://www.acentraqio.com/bene>. This is Acentra Health's webpage where people can learn more about how to access the rights they have under Medicare.
